Volume 9, September 2002–May 2003

Author Index

Adams, Michelle R., Kristian B. Postlewait, and Jeffrey C. Shih, Promoting Meaningful Mastery of Addition and Subtraction. Feb. 2003, 354–57.

Ambrose, Rebecca C., Are We Overemphasizing Manipulatives in the Primary Grades to the Detriment of Girls? Sept. 2002, 16–21.

Arvold, Bridget, Gina Stone, and Lynn Carter, "What Do You Get When You Cross a Math Professor and a Body Builder?" Mar. 2003, 408–13.

Atkins, Sandra L., and Jill A. Perry, It's Not Just Notation: Valuing Children's Representations. Dec. 2002, 196–201.

Austin, Laurie K., Gwendolyn N. Kelly, Teresa J. Kennedy, and Megan B. Eberhardt, Learning Spanish while Practicing Mathematics Concepts and Skills: A Winning Combination. Nov. 2002, 141–47.

Balfanz, Robert, Herbert P. Ginsburg, and Carole Greenes, The *Big Math for Little Kids* Early Childhood Mathematics Program. Jan. 2003, 264–68.

Bass, Hyman, Computational Fluency, Algorithms, and Mathematical Proficiency: One Mathematician's Perspective. Feb. 2003, 322–27.

Baumbach, Donna, Rethink the Role of the Library Media Center and Mathematics with SUNLINK. Sept. 2002, 40–41.

Becker, Joanne Rossi, Gender and Mathematics: An Issue for the Twenty-First Century. Apr. 2003, 470–73.

Beetsma, Abby, Joy W. Whitenack, Nancy Knipping, Jenine Loesing, and Ok-Kyeong Kim, Starting off the School Year with Opportunities for All: Supporting First Graders' Development of Number Sense. Sept. 2002, 26–31.

Behrend, Jean L., Learning-Disabled Students Make Sense of Mathematics. Jan. 2003, 269–73.

Berggren, Michelle, and Peggy Moch, Math Baseball. Dec. 2002, 221.

Berry, Stephanie M., Students Realize Mathematics Is Everywhere! Sept. 2002, 8–15.

Boerst, Timothy A., ? > 24′ × 30′: Professing Teacher Knowledge beyond the Classroom Walls, May 2003, 499–501.

———, Centered in Teaching Children Mathematics, Just Like You. Sept. 2002, 4–5, 7.

Boerst, Timothy A., and Jane F. Schielack, Toward Understanding of "Computational Fluency." Feb. 2003, 292–93.

Bradshaw, D'Lynn, and Christopher M. Kribs-Zaleta, A Case of Units. Mar. 2003, 397–99.

Brahier, Daniel J., Patterns at Your Fingertips. May 2003, 521–28.

Bresser, Rusty, Helping English-Language Learners Develop Computational Fluency. Feb. 2003, 294–99.

Brownell, William A., From NCTM's Archives: Meaning and Skill—Maintaining the Balance. Feb. 2003, 310–16.

Buschman, Larry, Becoming a Problem Solver. Oct. 2002, 98–103.

———, Children Who Enjoy Problem Solving. May 2003, 539–44.

Carter, Lynn, Bridget Arvold, and Gina Stone, "What Do You Get When You Cross a Math Professor and a Body Builder?" Mar. 2003, 408–13.

Clanton, Barbara L., Mrs. Glosser's Math Goodies. Mar. 2003, 407.

Clements, Douglas H., and Julie Sarama, Building Blocks of Early Childhood Mathematics. Apr. 2003, 480–84.

———, Mathematics Curricula in Early Childhood. Nov. 2002, 163–66.

Coakley, Mary McGee, Susan Austin Ebdon, and Danielle Legnard, Mathematical Mind Journeys: Awakening Minds to Computational Fluency. Apr. 2003, 486–93.

Collins, Edna Neal, and Edith L. Skipper, Making the NCTM Standards User-Friendly for Child Care Teachers. Mar. 2003, 421–27.

Conage, Mary, Betsy Shreero, Cindy Sullivan, and Alicia Urbano, Cranium Crackers. Apr. 2003, 462–63.

Corwin, Rebecca B., Assessing Children's Understanding: Doing Mathematics to Assess Mathematics. Dec. 2002, 229–33.

Ebdon, Susan Austin, Mary McGee Coakley, and Danielle Legnard, Mathematical Mind Journeys: Awakening Minds to Computational Fluency. Apr. 2003, 486–93.

Eberhardt, Megan B., Gwendolyn N. Kelly, Teresa J. Kennedy, and Laurie K. Austin, Learning Spanish while Practicing Mathematics Concepts and Skills: A Winning Combination. Nov. 2002, 141–47.

Edelson, R. Jill, and Gretchen L. Johnson, Integrating Music and Mathematics in the Elementary Classroom. Apr. 2003, 474–79.

Edwards, Laurie D., Collaborative Problem Solving in Mixed-Language Groups. May 2003, 534–38.

Femiano, Robert B., Algebraic Problem Solving in the Primary Grades. Apr. 2003, 444–49.

Fennell, Francis (Skip), and Barbara J. Reys, Who Should Lead Mathematics Instruction at the Elementary School Level? A Case for Mathematics Specialists. Jan. 2003, 277–82.

Flowers, Judith, Kate Kline, and Rheta N. Rubenstein, Developing Teachers' Computational Fluency: Examples in Subtraction. Feb. 2003, 330–34.

Freckman, Janis L., DeAnn Huinker, and Meghan B. Steinmeyer, Subtraction Strategies from Children's Thinking: Moving toward Fluency with Greater Numbers. Feb. 2003, 347–53.

Fuson, Karen C., Toward Computational Fluency in Multidigit Multi-

plication and Division. Feb. 2003, 300–305.

Ginsburg, Herbert P., Robert Balfanz, and Carole Greenes, The *Big Math for Little Kids* Early Childhood Mathematics Program. Jan. 2003, 264–68.

Green, David A., Last One Standing: Creative, Cooperative Problem Solving. Nov. 2002, 134–39.

Greenes, Carole, Robert Balfanz, and Herbert P. Ginsburg, The *Big Math for Little Kids* Early Childhood Mathematics Program. Jan. 2003, 264–68.

Griffin, Sharon, Laying the Foundation for Computational Fluency in Early Childhood. Feb. 2003, 306–9.

Guha, Smita, and Jacqueline Leonard, Creating Cultural Relevance in Teaching and Learning Mathematics. Oct. 2002, 114–18.

Hartweg, Kim, Farmer MacDonald. May 2003, 514–15.

———, Picasso Masterpiece. Feb. 2003, 340–41.

———, Responses to the Bike Trike Problem. Apr. 2003, 457–60.

———, Responses to the Measuring Hot Chocolate Problem. Dec. 2002, 224–28.

———, Responses to the Pumpkin Puzzler Problem. Oct. 2002, 122–24.

———, The Shopping Spree. Nov. 2002, 158–59.

Hodge, Tim, Ole Miss Problems of the Week. Nov. 2002, 156.

———, Web-Based Manipulatives. Apr. 2003, 461.

Huinker, DeAnn, Janis L. Freckman, and Meghan B. Steinmeyer, Subtraction Strategies from Children's Thinking: Moving toward Fluency with Greater Numbers. Feb. 2003, 347–53.

Ittigson, Robin, Helping Students Become Mathematically Powerful. Oct. 2002, 91–95.

Jenner, Donna M., Experiencing and Understanding Mathematics in the Midst of a Story. Nov. 2002, 167–71.

Johnson, Gretchen L., and R. Jill Edelson, Integrating Music and Mathematics in the Elementary Classroom. Apr. 2003, 474–79.

Kelly, Gwendolyn N., Why Can't I See the Tree? A Study of Perspective. Oct. 2002, 83–90.

Kelly, Gwendolyn N., Teresa J. Kennedy, Megan B. Eberhardt, and Laurie K. Austin, Learning Spanish while Practicing Mathematics Concepts and Skills: A Winning Combination. Nov. 2002, 141–47.

Kennedy, Teresa J., Gwendolyn N. Kelly, Megan B. Eberhardt, and Laurie K. Austin, Learning Spanish while Practicing Mathematics Concepts and Skills: A Winning Combination. Nov. 2002, 141–47.

Khisty, Lena Licón, Mathematics Learning and the Latino Student: Suggestions from Research for Classroom Practice. Sept. 2002, 32–35.

Kim, Ok-Kyeong, Joy W. Whitenack, Nancy Knipping, Jenine Loesing, and Abby Beetsma, Starting off the School Year with Opportunities for All: Supporting First Graders' Development of Number Sense. Sept. 2002, 26–31.

Kline, Kate, Judith Flowers, and Rheta N. Rubenstein, Developing Teachers' Computational Fluency: Examples in Subtraction. Feb. 2003, 330–34.

Knipping, Nancy, Joy W. Whitenack, Jenine Loesing, Ok-Kyeong Kim, and Abby Beetsma, Starting off the School Year with Opportunities for All: Supporting First Graders' Development of Number Sense. Sept. 2002, 26–31.

Koester, Beverly A., Prisms and Pyramids: Constructing Three-Dimensional Models to Build Understanding. Apr. 2003, 436–42.

Kribs-Zaleta, Christopher M., and D'Lynn Bradshaw, A Case of Units. Mar. 2003, 397–99.

Kritzer, Karen L., and Claudia M. Pagliaro, Math according to Mooch. May 2003, 503–12.

Legnard, Danielle, Susan Austin Ebdon, and Mary McGee Coakley, Mathematical Mind Journeys: Awakening Minds to Computational Fluency. Apr. 2003, 486–93.

Leonard, Jacqueline, and Smita Guha, Creating Cultural Relevance in Teaching and Learning Mathematics. Oct. 2002, 114–18.

Loesing, Jenine, Joy W. Whitenack, Nancy Knipping, Ok-Kyeong Kim, and Abby Beetsma, Starting off the School Year with Opportunities for All: Supporting First Graders' Development of Number Sense. Sept. 2002, 26–31.

Lubinski, Cheryl A., and Albert D. Otto, Meaningful Mathematical Representations and Early Algebraic Reasoning. Oct. 2002, 76–80.

McDuffie, Amy M. Roth, and Terrell A. Young, Promoting Mathematical Discourse through Children's Literature. Mar. 2003, 385–89.

McLean, Deborah L., Honoring Traditions: Making Connections with Mathematics through Culture. Nov. 2002, 184–88.

Manchester, Patricia, The Lunchroom Project: A Long-Term Investigative Study. Sept. 2002, 43–47.

Mann, Robert, March Mathness. Mar. 2003, 402–3.

———, Package Puzzle. Dec. 2002, 222–23.

———, Responses to the Football Frenzy Problem. Nov. 2002, 160–61.

———, Responses to the Have a Heart Problem. Feb. 2003, 342–46.

———, A Walk in the Park. Sept. 2002, 57–58.

Mann, Robert, and Nora Miller, Responses to the Marble Mayhem Problem: A Solution Evolution. May 2003, 516–20.

Subject Index

Algebra/Algebraic Thinking
Algebraic Problem Solving in the Primary Grades. Apr. 2003, 444–49.
Meaningful Mathematical Representations and Early Algebraic Reasoning. Oct. 2002, 76–80.

Communication
The Lunchroom Project: A Long-Term Investigative Study. Sept. 2002, 43–47.
Mathematical Mind Journeys: Awakening Minds to Computational Fluency. Apr. 2003, 486–93.
Promoting Communication in the Mathematics Classroom. Dec. 2002, 205–11.
Promoting Mathematical Discourse through Children's Literature. Mar. 2003, 385–89.
Students Realize Mathematics Is Everywhere! Sept. 2002, 8–15.
Understanding and Supporting Children's Mathematical Vocabulary Development. Oct. 2002, 107–12.

Computation/Arithmetic
Computational Fluency, Algorithms, and Mathematical Proficiency: One Mathematician's Perspective. Feb. 2003, 322–27.
Designing Fraction-Counting Books. May 2003, 546–49.
Discussion as a Vehicle for Demonstrating Computational Fluency in Multiplication. Feb. 2003, 318–21.
From NCTM's Archives: Meaning and Skill—Maintaining the Balance. Feb. 2003, 310–16.
Helping English-Language Learners Develop Computational Fluency. Feb. 2003, 294–99.
Laying the Foundation for Computational Fluency in Early Childhood. Feb. 2003, 306–9.
Learning Spanish while Practicing Mathematics Concepts and Skills: A Winning Combination. Nov. 2002, 141–47.
Promoting Meaningful Mastery of Addition and Subtraction. Feb. 2003, 354–57.
Snack Math: Young Children Explore Division. Jan. 2003, 258–61.
Subtraction Strategies from Children's Thinking: Moving toward Fluency with Greater Numbers. Feb. 2003, 347–53.
Toward Computational Fluency in Multidigit Multiplication and Division. Feb. 2003, 300–305.
Toward Understanding of "Computational Fluency." Feb. 2003, 292–93.
When Flash Cards Are Not Enough. Feb. 2003, 358–63.

Connections/Applications
Cooperation and Consumerism: Lessons Learned at a Kindergarten Mini-Mall. Nov. 2002, 179–83.
Experiencing and Understanding Mathematics in the Midst of a Story. Nov. 2002, 167–71.
Exploring Real-World Geometry. Apr. 2003, 450–54.
Integrating Music and Mathematics in the Elementary Classroom. Apr. 2003, 474–79.
Meaningful Mathematical Representations and Early Algebraic Reasoning. Oct. 2002, 76–80.
Promoting Mathematical Discourse through Children's Literature. Mar. 2003, 385–89.
Students Realize Mathematics Is Everywhere! Sept. 2002, 8–15.
Take Care of Mother Earth: Technology and the Environment. Mar. 2003, 414–19.
Time-Travel Days: Cross-Curricular Adventures in Mathematics. Mar. 2003, 374–80.
Understanding and Supporting Children's Mathematical Vocabulary Development. Oct. 2002, 107–12.
Use *Measuring Penny* to Introduce the Unit. Oct. 2002, 70–74.
"What Do You Get When You Cross

a Math Professor and a Body Builder?" Mar. 2003, 408–13.

Curriculum

The *Big Math for Little Kids* Early Childhood Mathematics Program. Jan. 2003, 264–68.

Building Blocks of Early Childhood Mathematics. Apr. 2003, 480–84.

Mathematics Curricula in Early Childhood. Nov. 2002, 163–66.

Discrete Mathematics

Math according to Mooch. May 2003, 503–12.

Early Childhood

The *Big Math for Little Kids* Early Childhood Mathematics Program. Jan. 2003, 264–68.

Building Blocks of Early Childhood Mathematics. Apr. 2003, 480–84.

Laying the Foundation for Computational Fluency in Early Childhood. Feb. 2003, 306–9.

Listening to Teachers: Planning for Professional Development. Sept. 2002, 36–39.

Making the NCTM Standards User-Friendly for Child Care Teachers. Mar. 2003, 421–27.

Mathematics Curricula in Early Childhood. Nov. 2002, 163–66.

Snack Math: Young Children Explore Division. Jan. 2003, 258–61.

Starting off the School Year with Opportunities for All: Supporting First Graders' Development of Number Sense. Sept. 2002, 26–31.

Editorial

Centered in Teaching Children Mathematics, Just Like You. Sept. 2002, 4–5, 7.

Equity and Diversity

Are We Overemphasizing Manipulatives in the Primary Grades to the Detriment of Girls? Sept. 2002, 16–21.

Creating Cultural Relevance in Teaching and Learning Mathematics. Oct. 2002, 114–18.

Helping English-Language Learners Develop Computational Fluency. Feb. 2003, 294–99.

Honoring Traditions: Making Connections with Mathematics through Culture. Nov. 2002, 184–88.

Learning Spanish while Practicing Mathematics Concepts and Skills: A Winning Combination. Nov. 2002, 141–47.

Multicultural Mathematics Instruction: Approaches and Resources. Sept. 2002, 49–55.

Teaching Mathematics through Cultural Quilting. Jan. 2003, 250–56.

Exceptional Student

Learning-Disabled Students Make Sense of Mathematics. Jan. 2003, 269–73.

Math according to Mooch. May 2003, 503–12.

Games and Puzzles

Describing Reasoning in Early Elementary School Mathematics. Dec. 2002, 234–37.

Geometry

Experiencing and Understanding Mathematics in the Midst of a Story. Nov. 2002, 167–71.

Prisms and Pyramids: Constructing Three-Dimensional Models to Build Understanding. Apr. 2003, 436–42.

Teaching Mathematics through Cultural Quilting. Jan. 2003, 250–56.

"What Do You Get When You Cross a Math Professor and a Body Builder?" Mar. 2003, 408–13.

History

Multicultural Mathematics Instruction: Approaches and Resources. Sept. 2002, 49–55.

International Perspective

The Chinese Numeration System and Place Value. Jan. 2003, 243–47.

Measurement

A Case of Units. Mar. 2003, 397–99.

Honoring Traditions: Making Connections with Mathematics through Culture. Nov. 2002, 184–88.

Sizing Up the River. Nov. 2002, 149–55.

"What Do You Get When You Cross a Math Professor and a Body Builder?" Mar. 2003, 408–13.

Modeling

NCTM Position Statement: Early Childhood Mathematics: Promoting Good Beginnings. Sept. 2002, 24.

NCTM President's Message

Letter from the Board of Directors to NCTM Members. Sept. 2002, 1.

Number Sense

Building a Community of Mathematicians. Apr. 2003, 464–69.

Celebrating 100 with Number Sense. Dec. 2002, 212–17.

Laying the Foundation for Computational Fluency in Early Childhood. Feb. 2003, 306–9.

Meaningful Mathematical Representations and Early Algebraic Reasoning. Oct. 2002, 76–80.

Starting off the School Year with Opportunities for All: Supporting First Graders' Development of Number Sense. Sept. 2002, 26–31.

Number System

The Chinese Numeration System and Place Value. Jan. 2003, 243–47.

Designing Fraction-Counting Books. May 2003, 546–49.

Problem Solving

Becoming a Problem Solver. Oct. 2002, 98–103.

Building a Community of Mathematicians. Apr. 2003, 464–69.

Bits and Pieces. Mar. 2003, 400–401.

Calendar Math. Oct. 2002, 96–97.

Careers That Count. Jan. 2003, 274–75.

Children Who Enjoy Problem Solving. May 2003, 539–44.

Computation Capers. Feb. 2003, 328–29.

Cranium Crackers. Apr. 2003, 462–63.

Farmer MacDonald. May 2003, 514–15.

Fostering Flexibility with Number in the Primary Grades. Dec. 2002, 202–4.

Doing Mathematics outside of School. Nov. 2002, 175–78.

Fractionberry Pie. Oct. 2002, 120–21.
Helping Students Become Mathematically Powerful. Oct. 2002, 91–95.
Last One Standing: Creative, Cooperative Problem Solving. Nov. 2002, 134–39.
Learning-Disabled Students Make Sense of Mathematics. Jan. 2003, 269–73.
Math in Art. Dec. 2002, 218–20.
Package Puzzle. Dec. 2002, 222–23.
Patterns at Your Fingertips. May 2003, 521–28.
Perfect-Square Geometry Partners. Jan. 2003, 262–63.
Pets. Nov. 2002, 172–74.
Picasso Masterpiece. Feb. 2003, 340–41.
Responses to the Average Days of Spring Problem. Mar. 2003, 404–6.
Responses to the Bike Trike Problem. Apr. 2003, 457–60.
Responses to the Have a Heart Problem. Feb. 2003, 342–46.
Responses to the Football Frenzy Problem. Nov. 2002, 160–61.
Responses to the Marble Mayhem Problem: A Solution Evolution. May 2003, 516–20.
Responses to the Measuring Hot Chocolate Problem. Dec. 2002, 224–28.
Responses to the Pumpkin Puzzler Problem. Oct. 2002, 122–24.
Responses to the Turning the Tables Problem. Sept. 2002, 59–63.
Shape Search. Apr. 2003, 455–56.
The Shopping Spree. Nov. 2002, 158–59.
Sizing Up the River. Nov. 2002, 149–55.
Stars and Stripes. Sept. 2002, 22–23.
A Walk in the Park. Sept. 2002, 57–58.
Weighing the Options. Mar. 2003, 390–95.
World-Record Math. May 2003, 530–31.

Reasoning
Describing Reasoning in Early Elementary School Mathematics. Dec. 2002, 234–37.

Representation
It's Not Just Notation: Valuing Children's Representations. Dec. 2002, 196–201.

Research
Assessing Children's Understanding: Doing Mathematics to Assess Mathematics. Dec. 2002, 229–33.
Collaborative Problem Solving in Mixed-Language Groups. May 2003, 534–38.
Gender and Mathematics: An Issue for the Twenty-First Century. Apr. 2003, 470–73.
Introducing Percents in Linear Measurement to Foster an Understanding of Rational-Number Operations. Feb. 2003, 335–39.
Mathematics Learning and the Latino Student: Suggestions from Research for Classroom Practice. Sept. 2002, 32–35.
Why Can't I See the Tree? A Study of Perspective. Oct. 2002, 83–90.

Statistics/Data Analysis
Last One Standing: Creative, Cooperative Problem Solving. Nov. 2002, 134–39.
The Lunchroom Project: A Long-Term Investigative Study. Sept. 2002, 43–47.

Teachers
? > 24' × 30': Professing Teacher Knowledge beyond the Classroom Walls. May 2003, 499–501.
Developing Teachers' Computational Fluency: Examples in Subtraction. Feb. 2003, 330–34.
Doing Mathematics outside of School. Nov. 2002, 175–78.
Listening to Teachers: Planning for Professional Development. Sept. 2002, 36–39.
Who Should Lead Mathematics Instruction at the Elementary School Level? A Case for Mathematics Specialists. Jan. 2003, 277–82.

Teaching
Are We Overemphasizing Manipulatives in the Primary Grades to the Detriment of Girls? Sept. 2002, 16–21.
Children Who Enjoy Problem Solving. May 2003, 539–44.
Cooperation and Consumerism: Lessons Learned at a Kindergarten Mini-Mall. Nov. 2002, 179–83.
Mathematical Mind Journeys: Awakening Minds to Computational Fluency. Apr. 2003, 486–93.
Multicultural Mathematics Instruction: Approaches and Resources. Sept. 2002, 49–55.
Using Rewards in Mathematics Education: Two Points of View. Mar. 2003, 381–83.

Technology
Math Baseball. Dec. 2002, 221.
Mrs. Glosser's Math Goodies. Mar. 2003, 407.
The NCES Classroom. May 2003, 529.
Ole Miss Problems of the Week. Nov. 2002, 156.
Rethink the Role of the Library Media Center and Mathematics with SUNLINK. Sept. 2002, 40–41.
Take Care of Mother Earth: Technology and the Environment. Mar. 2003, 414–19.
Web-Based Manipulatives. Apr. 2003, 461. ▲
